

# INsite v. 3.7a Release Notes

April 24, 2009

**NOTE:** *The DeadLine for applying this patch is **April 30, 2009**. Any CCB's finalized with an older version of Insite after that date will be automatically denied when received at the State.*

## **ARRA (American Recovery & Reinvestment Act) Funding for Home-Delivered Meals (Applies to AAA's only)**

ARRA is now available as a funding source for HDM. You will need to add the funding source to the appropriate vendors before it can be put on a Care Plan/Worksheet. Additionally you will need to set up Status codes & General Ledger code for ARRA if desired.

## **Waiver to Waiver Transfers**

If a consumer is active on a one waiver and transfers to another waiver, the system will automatically create a Data Entry Worksheet to terminate the consumer from the old waiver as well as a Termination CCB to zero-out the units in all the months subsequent to the starting month of the new waiver when the start date of the Initial CCB for the new waiver is confirmed.

## **Bug Fixes**

Fixed problem with units/minutes on case note for TCM.
